General Preface

Only 4 volumes are indexed in this monographic index volume. Because of the special place in Martin Heidegger **corpus**, I thought that just doing the *Schwarze Hefte (Black Notebooks)* would reduce the confusions and lead to a more carefully examination of the *Schwarze Hefte (Black Notebooks).* At this time only four volumes of the *Schwarze Hefte* have been published in the Gesamtausgabe (September 2016). However, this does include the years 1931 to 1948; and about 1817 printed pages of Heidegger's text. Given that the *Schwarze Hefte (Black Notebooks)* have become a timely theme in Heideggerian research, so this index should help researchers narrow their scope of investigation into Heidegger's thinking. Note: these text are entirely in German.

What is particular and unique about these notebooks?
Martin Heidegger wrote many other "kinds" or "generas" of writings during this period. He gave many lectures/seminars, and wrote essays, treatise, letters, poetry, dialogues, and philosophical notes. What is unique about these notebooks are that these are the "inner" thoughts of Heidegger. Plus, many of these notes reflect more personal remarks, and include his personal attacks on ideas and persons. "Doubly secret" (Friedrich-Wilhelm von Herrmann). Some of these notes address contemporary events unfolding in Germany during this period. Perhaps you can say, that these are more Heidegger's private opinions than his abstract philosophical ideas and reflections. These are Heidegger "unfiltered" philosophical views. Heidegger warns against equating philosophy with a worldview, but conceivably many of these notes show us more Heidegger's worldview than

numerous of his other writings. Some of these notes are “raw” philosophical; but on the other hand, many give us Heidegger’s personal views. Frequently many of Heidegger’s philosophical writings feel like he is giving us the view of the great philosophical landscape from 70,000 feet (he is criticized for this high level outlook); but in a myriad of these notes in the Black Notebooks the sense is that Heidegger is giving us view from a mere human height (in the trenches). He is in fact, human-all-too-human in his these personal opinions. Some of these notes might even be characterized as “nasty remarks”. Nevertheless, he is still ranked as one the greatest philosopher of the 21st century, and even his personal opinions are of great import (even if some are plain wrong). He even quotes Melvin; and makes remarks about Stalin, Roosevelt and Winston Churchill.

Remember these were tumultuous times in Heidegger’s Germany. A crisis of modern sciences, perhaps Heidegger personal crisis; a crisis in faith, and when was philosophy itself not in some crisis mode. Please note: *Crisis of European Sciences and Transcendental Phenomenology: An Introduction to Phenomenological Philosophy* (*Die Krisis der europäischen Wissenschaften und die transzendentale Phänomenologie: Eine Einleitung in die phänomenologische Philosophie)* was published in 1936. Written by Edmund Husserl. Plus, as we know from his letter to Herbert Marcuse, he was very distraught and upset about his country being split in two. Heidegger was facing a multifaceted crisis (Krisis) on all fronts. Both of Heidegger’s sons were captured and were in prisons (Gulag) in the Soviet Union. The eldest son Jörg Heidegger was not release until December of 1949. Herman Heidegger was release in 1947. Martin Heidegger was a father too.

Table of Contents

Introduction.

Total words indexed: 37,656 (and about 26 Mbytes). The four printed volumes that are combined and indexed. These are pages 1 to 1817. The actual published texts are not included because of copyright. This is an index to those four volumes (GA 94, 95, 96, and 97) written by Martin Heidegger between 1931 and 1948. Heidegger's original note book format: 5 ¼ inches by 7 ½ inches. The physical note books 'covers' are colored in Black hence the name Black Notebooks or in German the *Schwarze Hefte.*

Heidegger's motto for his collected writings (Gesamtausgabe) written from just before he died (1976), the Motto he decided is: "Wege – nicht Werke" "Ways – not Works". Martin Heidegger collected writings (note: not collected works), are in German titled: "Gesamtausgabe" and the standard abbreviation is Heidegger GA and volume number, for example: Heidegger GA 97, page 42.

The following Main Index is a machine index of four volumes written by Martin Heidegger: *Überlegungen II-VI (Schwarze Hefte 1931-1938)*; *Überlegungen VII-XI (Schwarze Hefte 1938/39)*; *Überlegungen XII-XV (Schwarze Hefte 1939-1941),* and *Anmerkungen I-V (Schwarze Hefte 1942-1948)*. GA 94, 95, 96, and 97. Everything is indexed there are no-stop words and all words are included. No words have been removed.

Heidegger's Notebooks

In his discussion of the many open **questions** regarding Heidegger's *Black Notebook* and how many notebooks have yet to be published; Holger Zaborowski makes this exacting point,

"***For what is currently at stake is the legacy of Heidegger's thought in general***".

Peter Trawny the editor makes a note about the total number of Martin Heidegger's notebooks as being 34 or 36 (written from 1931-1976).

„Uns liegen vierunddreißig »Schwarze Hefte« vor: vierzehn Hefte mit dem Titel »Überlegungen«, neun »Anmerkungen«, zwei »Vier Hefte«, zwei »Vigilae«, ein »Notturno«, zwei »Winke«, vier »Vorläufiges«. Daneben haben sich zwei weitere Hefte mit den Titeln »Megiston« und »Grundworte« gefunden. Ob und wie sie zu den »Schwarzen Fleften« gehören, muß noch geklärt werden. Die Bände 94 bis 102 der Gesamtausgabe werden in den nächsten Jahren die vierunddreißig zuerst genannten Handschriften enthalten.Die Entstehung der Hefte umfaßt einen Zeitraum von mehr als vierzig Jahren." Nachwort des Herausgebers, GA 94, page 531.

Basic outline of the known Heidegger notebooks.

There are 34 or 36 notebooks from 1931 to 1976.
Reflections (*Überlegungen*) [14 books] 1931 and 1941. All published.
Observations (*Anmerkungen*), [9 books]. One published so far.

===Still to come:
Observations (*Anmerkungen*); eight notebooks.
Four Notebooks (*Vier Hefte*); two actual notebooks.
Two Vigils (*Vigilae*); two notebooks.
Nocturne (*Notturno*); one notebook.
Hints (*Winke*); two notebooks.
Provisionals (*Vorläufiges*); four notebooks.
Megiston and *Fundamental Words* (*Grundworte*); two notebooks.

So, as you can see many of these notebooks have yet to be published in German as 2016. Stay tuned. Lots of open questions.

»Aphorismen« -sind eine zweideutige Form der Aussage. Sie können der Fülle entstammen und dieser nicht gewachsen sein. Sie sind dann Notrufe und vorläufige Zeichen für das Unerschöpfliche. Sie können aber auch aus der Leere kommen und diese nur verdecken wollen. Sie sind fertige Nach-sagen des Schon-Gesagten. Die verderbliche Nachahmung Nietzsches erzeugt heute eine Menge solcher »Aphorismen« der Nichtigkeit, die den Schein von »Geist« vortäuschen und einreden möchten, sie vollzögen eine Besinnung und Überlegung. Sie sind flüchtige Vertuschungen der Gedankenlosigkeit; keine »Andachten«. [Page 1307 of this combined indexed volume]. Printed volume is GA 97, page 17.

Very interested passage (See Richard Polt review for comments). [http://ndpr.nd.edu/news/67567-ponderings-ii-vi-black-notebooks-1931-1938/].

Martin Heidegger wrote:
„Entfachten sie doch einen Sturm des Denkens um die Sache von »Sein und Zeit«, dann würden sie zu echten Wider-sachern; aber das Unvermögen zum Denken treibt nur in das Listige von Feinden und in das Hitzige von Übelwollenden.

»Prophetie« ist die Technik der Abwehr des Geschicklichen der Geschichte. Sie ist ein Instrument des Willens zur Macht. Daß die großen Propheten Juden sind, ist eine Tatsache, deren Geheimes noch nicht gedacht worden. (Anmerkung für Esel: mit »Antisemitismus« hat die Bemerkung nichts zu tun. Dieser ist so töricht und so verwerflich, wie das blutige und vor allem unblutige Vorgehen des Christentums gegen »die Heiden«. Daß auch das Christentum den Antisemitismus als »unchristlich« brandmarkt, gehört zur hohen Ausbildung der Raffinesse seiner Machttechnik.)

»Prophetie« ist die vorwärtsgerichtete Historie und darum die technische Vollendung des Wesens der Historie. Der Journalismus ist die unbedingte Technik der Historie: vor- und rückwärts gerichtet 1 und deshalb erst »gegenwärtsnah« und nur so »aktuell«. - Es gibt geborene Journalisten. GA 97, page 159. Anmerkungen II.

„Nachlass. - Der Arten dessen, was dieser Titel meint, sind viele. Man meint eine Hinterlassenschaft und meint im besonderen die »literarische« - was an Geschriebenem noch vorliegt, >>noch«, d. h. solches, was noch nicht, weil nämlich »nicht mehr« gedruckt wurde, sei es, daß dieses Geschriebene nicht zur Vollendung kam, sei es, daß es aus irgendwelchen Gründen zurückgehalten wurde. Aber immer meint man, es hätte eigentlich bei Lebzeiten des Verfassers und für seine Gegenwart veröffentlicht werden müssen, so daß es jetzt, nach dem Tode eigentlich zu spät und jedenfalls hinterher kommt. »Zu spät« für wen? Gewiß nicht für den Verfasser, damit er noch die »Wirkung« erlebe; »hinterher«? Hinter seinem Tod? oder seinem Leben? Seltsame Überlegungen drängen sich da auf, weil es einmal sein könnte, daß hier ganz andere Gesetze sich geltend machen und das Wort »Nachlaß« durchaus verkehrte Vorstellungen erwirkt. Vielleicht geht das Gesetz zu weit, daß es sogar verhindert, eine Besinnung auf es auch nur aufzuzeichnen. Vielleicht ist, was notgedrungen wie »Nachlaß« aussieht, ein Anlaß in einem Lassen, das nie genug auf das Geschick hören und sich ihm rein überlassen kann.“ GA 97, page 162. Anmerkungen II.

My thought for Martin Heidegger is a motto from the famous Johann Hamann (1730-1788) who challenged his own readers; Hamann's remark was, "A writer who is in a hurry to be understood today or tomorrow runs the danger of being misunderstood the day after tomorrow."

How do use this index?

Because of sorting problems it is best to use the FIND FUNCTION. **Nota Bene**: use umlauts because the letters sort different as well!! So, again use the FIND FUNCTION to look for words or names. Please note the German words that start with umlauts are at the end of the index because of machine sorting of the words. Starting with the German word "ßbar, 1042" on page 1898 page of this book (see in Main Index).

How to use this index?

Carefully, very carefully!!

Important: it is always better to read Martin Heidegger in context.

Martin Heidegger wrote in 1946:
“Wörterbücher sind deshalb, wenn sie zum Auslegen gebraucht werden, so unentbehrlich, wie sie gefährlich sind.“ „
“Dictionaries are therefore, when they are needed for laying out, as indispensable as they are dangerous (gefährlich).”
(Martin Heidegger, GA 78, page 52). *Der Spruch des Anaximander*.

Other remarks about dictionaries and interpretations by Martin Heidegger:

„Unsere Interpretation ist kein äußerliches Feststellen einer Wortbedeutung anhand des Wörterbuches. Vor allem aber ist mit dem bisher über οὐσία Gesagten nicht das letzte Wort gesprochen, sondern es war nur die Vorbereitung für die Interpretation der philosophischen Bedeutung des Wortes. Diese Interpretation besteht nicht darin, die Bedeutungen zu sammeln, die das Wort an verschiedenen Stellen der philosophischen Schriften hat, sondern darin, es als Grund- und Problemwort nachzuweisen, um so die innerste Problematik der antiken Metaphysik ans Licht zu bringen, in welcher où diu als Problemwort aus und in der Leitfrage der Philosophie zu verstehen ist. Das wäre freilich Sache einer eigenen Vorlesimg.“ Martin Heidegger, GA 31, page 54). GA 31. *Vom Wesen der menschlichen Freiheit. Einleitung in die Philosophie* (Summer semester 1930), ed. H. Tietjen, 1982, 2nd edition 1994.

“Our interpretation is not outward detecting a word meaning based on the dictionary.” Written in Introduction to the second edition of *Kant and Problem of Metaphysics* (1929).

„Die vor zwei Jahrzehnten veröffentlichte und alsbald vergriffene Schrift erscheint hier unverändert. So bleibt ihr die Form erhalten, in der sie auf mannigfache Weise gewirkt und nicht gewirkt hat. Unablässig stößt man sich an der Gewaltsamkeit meiner Auslegungen. Der Vorwurf des Gewaltsamen kann an dieser Schrift gut belegt werden. Die philosophiehistorische Forschung ist mit diesem Vorwurf sogar jedesmal im Recht, wenn er sich gegen Versuche richtet, die ein denkendes Gespräch zwischen Denkenden in Gang bringen möchten. Im Unterschied zu den Methoden der historischen Philologie, die ihre eigene Aufgabe hat, steht ein denkendes Zwiegespräch unter anderen Gesetzen. Diese sind verletzlicher. Das Verfehlende ist in der Zwiesprache drohender, das Fehlende häufiger.

Das Verfehlte und Fehlende des vorliegenden Versuches ist mir auf dem Denkweg während des genannten Zeitraumes so deutlich geworden, daß ich darauf verzichte, diese Schrift durch nachholende Zusätze, Anhänge und Nachworte zu einem Flickwerk zu machen. Denkende lernen aus dem Fehlenden nachhaltiger.”
(Martin Heidegger, GA 3, dated: Freiburg i. Br., im Juni 1950, page XVII.).
GA 3. *Kant und das Problem der Metaphysik* (1929), ed. F.W. von Herrmann, 1991, XVIII, 318p.

One important line: ”Unlike the methods of historical philology, which has its own task, this is a thinking dialogue coming under other laws. These are more vulnerable. “
